

ECO WALKER / TAY SPORTS

Manufacturer of portable inflatable soccer goals, training markers & field lighting

Company at a Glance

Founded	2005 — 21 years in manufacturing	Made in	Shaoxing, China (own factory, not a trader)
Brand	Eco Walker (Rigid Air Technology)	Markets	30+ countries; North America, Europe, APAC, MENA, LATAM
Fulfillment	US warehouse (N. America) • sea-freight FOB China (intl.)	UK / EU entity	TAY SPORTS LTD (Co. 12327575, VAT GB353231625)

What We Manufacture

- **Portable & inflatable soccer goals** — Rigid Air Technology (RAT) inflates the frame to 1 Bar (15 PSI), matching the rigidity of a thin-wall steel tube at ~80% less weight, while absorbing impact rather than transferring it. Sizes 4x3 up to 24x8, anti-tip by design.
- **Training & agility markers** — flat and shaped markers, full agility/SAQ sets for multi-sport programs.
- **Ecowalker Light** — portable LED field lighting on an inflatable mast, IP65-rated for outdoor and pitch-side use; battery or mains.

Why Buy Manufacturer-Direct

- **40–55% lower per-unit cost** than retail catalog or specialty-distributor pricing — same build, without two layers of markup.
- **OEM / private-label** at 100+ units — your brand on packaging, manual, and goal frame. Custom colour or logo from 50+ units.
- **21 years OEM manufacturing** for established international sporting-goods brands — stable capacity, not a trading company.

Compliance & Documentation

Goals are **designed and built to comply with EN 16579**, the current UK/EU portable-goal safety standard, and **shock-tested in-house to its requirements**. EN 16579 uses a manufacturer self-declaration route — we provide a signed Declaration of Compliance plus our test records (we do not claim third-party certificates we do not hold). Field lighting carries an **IEC 60598 / IP65** safety attestation. CE and EN 14960 are in progress for 2026. Full statement and downloadable attestations: www.taysports.com/compliance

Institutional documentation package: W-9, Certificate of Insurance, EN 16579 attestation, IP65 attestation, MSDS, warranty & freight terms — project-specific signed attestations within 1–2 business days.

Who We Serve

- School districts & international schools
- Youth & club soccer, academies
- Parks & recreation, summer camps
- National federations & tournament series
- Distributors & sporting-goods retailers
